## Electra™ Model

The Electra™ Model was designed as an alternative to Arm-R-Lite's Titan™ Model to provide the most light transmission with its narrow profile rails and stiles. Since 1958, Arm-R-Lite has been consistently manufacturing the Electra™ Model and has never compromised on the quality of our doors. Because of this, Arm-R-Lite is able to produce replacement sections for any of our welded models, regardless of purchase date. In addition, the Electra™ Model comes with an unmatched 20-year welded frame warranty except for the top section when trolley operated.

- **Maximum Width of 16'-2"**
- **Narrow Rails and Stiles**
- **20-Year Welded Frame Warranty\***

### Specifications:

|                             |                             |
