

ARM-R-LITE Door Manufacturing Co., Inc.

Example Mesh Panel Options

Mesh panels are available in diamond, square, weave, and fine weave patterns. Custom mesh designs beyond what is shown above are available for unique applications.

Mesh panels for aluminum garage doors can be customized based on design and air space requirements for specific projects.

Please contact our customer service and sales staff with any questions regarding our mesh panels.

Panels shown are style examples. Please contact our customer service and sales staff for specific panel designs.
