

Aluminum and Fiberglass Model

Arm-R-Lite's Fiberglass Model garage door can be used in any commercial or residential application looking for a corrosion resistant product. The standard fiberglass panels are non-insulated, flat, semi-translucent white panels. Insulated fiberglass panels are also available for an upgrade. Due to its lightweight properties, the Aluminum and Fiberglass Model garage door is perfect for greenhouses, salt barns or any other application where a durable product is required. If one of the sections is ever damaged and needs to be replaced, Arm-R-Lite is able to produce replacement sections regardless of purchase date. In addition, the Aluminum and Fiberglass Model comes with an unmatched 20-year welded frame warranty except for the top section when trolley operated.

- **Maximum Width of 30'-2"**
- **Flat, White, Semi-Translucent Panels***
- **20-Year Welded Frame Warranty****
